

# Saving DICOM images from Acteon X Mind Trium to a Zip File you can send to IDT

# Step 1

Launch the Acteon software and find the required Patient.

Patie	ent Data			
L	+		Searc	h Patient
Filte	er by:			Patient Info:
Any F	ield:			
	lis		x	-
Id	Last Name	First Name	External Id DICOM Id	
9	Lis	C	0001364	

# Step 2

Right-click on the required Study and select "Export Case".

# Step 3

Browse to the folder called "CBCT Exports" on your Desktop and click "Select Folder". If the "CBCT Exports" folder isn't already present you can create it.

# Step 4

If the Export is successful you should see the following message:

# Step 5

Click "OK" then "OK" again to open the CD folder you just created.

# Step 6

You will see a folder similar to the one shown below. Double-click "**bin**" as that is where the DICOM images are stored.

Organize 👻 👸 Op	oen 🛛 Include in library 🔻	Share with 👻 🛛 Burn	New folder
🚖 Favorites	Name	Date modified	Туре
📃 Desktop	() bin	19/12/2017 13:10	File folder

	🚳 start.bat	19/06/2013 21:41	Windows Batch File
詞 Libraries 📑 Documents			

#### Step 7

Double-click the folder called "Storage" and you will see your patient listed.

There will be 2 folders for your patient: one with "CT\_" in front of the patient name, and one without.

The folder **without "CT\_" in front of the patient name** is the one containing the DICOM images.

Organize 👻 🛛 🍃 Open	Include in library 🔻 🥵	Share with 🔻 🛛 Burn	New folder
🚖 Favorites	Name	Date modified	Туре
🧮 Desktop	Lis_054268_513	19/12/2017 13:10	File folder
鷆 Downloads	📕 Lis_054268_513	19/12/2017 13:10	File folder
😌 Dropbox			
📃 Recent Places			

# Step 8

Right-click the folder **without "CT\_" in front of the patient name** and select "**Copy**". Right-click on your Desktop and select "**Paste**". This will make a copy of the folder on your Desktop.

# Step 9

Right-click the **folder you just made on your** Desktop and select **"Send To**" and then select **"Compressed (zipped) folder**". This will make a Zip File (with a picture of a zip) on your Desktop. The file name will end with .zip.

The file ending in .zip (with a picture of a zip) is the Zip File that you need. You can delete the copy of the patient folder from your Desktop as it is no longer needed.

# Step 10

You can send the Zip File to a colleague by copying it to a memory stick, or by emailing it to them.

Use Method A or Method B or Method C or any other method to send the Zip File to IDT.

# How to Send the Zip File to IDT

# Method A: if you have an sFTP Account

You can drag the Zip File into your "To\_IDT" folder.

# Step 11A

- On your Desktop, double-click WinSCP to launch it.
- Drag the Zip File from your Desktop into the **To\_IDT** folder.
- When the Zip File has finished uploading, delete it from your Desktop.

# Method B: if you have registered on www.idtscans.com

You can upload the Zip File while booking in the work you require.

# Step 11B

- Go to www.idtscans.com
- Log into your account and start booking the case in
- Select ".zip file via MailBigFile" and click on "Upload Now".
